## Addendum

With the revision of the International Plant Protection Convention's *Regulation of Wood Packaging Material in International Trade* (ISPM-15) in April 2009, the quality marks above superseded the following quality marks. The April 2009 ISPM-15 revision requires the placement of additional information, such as the agency trademarks, to be outside the borders of the IPPC mark. While the accredited agency quality marks have been amended to comply with ISPM-15, wood packaging material will continue to be found with the marks shown below.
